HOPE CHESS !

Fridays, 1:45 - 2:45 PM, Yurt
Starts September 29 thru June 14!
Play for Trophies!
Helpful in School, Sports, Work & Life!

Chess teaches:

1. Creativity
2. Problem solving
3. Logic
4. Planning
5. Time management
6. Confidence

My students who started with me in 2nd and 3rd grade and are now at Camden Hills High listen when I tell them work starts when school is over. I tell them good jobs depend on what they've learned, what they can do and what they've done that is exceptional. Skills learned in chess make STEM classes less work and more fun!

Chess is the long game: become a part of it. Chess is my favorite activity for kids. Search (or click) ["Bruce Haffner Chess NBC"](#) for a four minute video on my program and advice from Kate Kaplan, a great chess mom.

My goal in chess is to make your child smarter while having fun. I try to motivate your child to want to learn on his/her own. I urge my students to read three hours a day and use their time wisely. While our best team finish so far is 3rd in the state, Hope could be a powerhouse in chess. The other schools where I teach have a combined fourteen 1st place finishes since 2017 proving that hard work pays off. Work towards being a champion this year!

Chess is the best thing I did with my kids. My son, Will, was Illinois K/3 Champion in 1999. Besides playing chess, Will read at least three hours a day. In high school he took an amazing eleven Advanced Placement classes (they count as semester classes in college). Come to class any time or meet with me anywhere to learn how you can get involved. Let's work together to motivate your child! For all Hope kids!

I also Teach after school Mondays-Belfast, Tuesdays, CRES, Wednesdays, LCS and Thursdays - Camden Hills High & CRMS.
