

DAILY HEALTH SELF-CHECK

This is one of the main safety features of our return to in-person learning in our school, the daily health self-check. It is critical that all members of our school community conduct this health check every morning before entering the building. To help ensure this happens, we are requiring every individual student and staff member submit the results of this self-check to a central location every morning by 7:30 AM.

There will be an app with a QR code used for this.

Each student (or parent on behalf of student) and staff member should go through this daily checklist before coming to school/work in order to help prevent the spread of COVID-19.

Do I have a fever, or shaking chills?

Do I have a new cough or sore throat in the last 14 days?

Do I have a new shortness of breath in the last 14 days?

Do I have a new loss of taste or smell in the last 14 days?

Do I have unexplained body aches that are new in the past 14 days?

Do or have I been around anyone exhibiting these symptoms within the past 14 days?

Do or have I been living with anyone who is sick or quarantined in the past 14 days?

Have I been out of state (non-exempt from CDC) in the last 14 days?

Do I feel unwell today?

If the answer is YES to any of these, stay home.

School secretaries and nurses will work together to monitor this list for compliance and contact families who do not comply.

In addition, there will be a QR code on the entrance to the school, so that any essential visitor must also do the health check prior to entering the building.
